

YAO DAVID LOGAN

PROFESSIONAL PROFILE

Fullstack Developer & Software Engineer

Passionate fullstack developer focused on building robust and scalable software solutions. With a self-taught background and diverse experience in web, mobile, and desktop development, I leverage modern technologies to create high-performance, user-centered applications. I am seeking a stimulating environment where I can contribute to innovative projects while continuing to expand my technical expertise.

PROFESSIONAL EXPERIENCE

Fullstack Developer & Software Architect

Nexus Corporation | August 2025 - Present* | Lomé, Togo

Financial investment platform and mobile application

- *Microservices Architecture: Designed a modular platform using Next.js 14, Node.js, PostgreSQL, Redis*
- *Cross-platform Mobile Application: Developed with React Native (currently in Google Play review)*
- *Secure Payment System: Integrated multiple gateways with end-to-end encryption*
- *Analytical Dashboard: Built a complete admin interface with real-time data visualization*

- *Mobile Download: nexuscorporat.com/download ou <https://nexus-corporation.en.uptodown.com/android>*
- *Admin dashboard: admin.nexuscorporat.com*
- *Technical blog: blog.nexuscorporat.com*

Software Engineer & Expert en Automatisation

Ubuntu Consulting SARL | February 2025 – October 2025

Development of B2B SaaS solutions and automation platforms

Prospect-Pro - AI-Powered B2B Prospecting Platform

- *Stack: Next.js, TypeScript, Python, PostgreSQL, Advanced AI*
- *Demo: prospect-pro-sgrq.vercel.app*

CONTACT INFORMATION

Address: Lomé - TOGO

Tel: (+228) 91680967 / 96690680

Linkedin: [/in/yaodavidlogan](https://www.linkedin.com/in/yaodavidlogan)

SKILLS

Frontend & Mobile

- *Frameworks: Next.js 14, React 18, Vue.js 3, Flutter, React Native*
- *Languages: TypeScript, JavaScript, Dart*
- *UI/UX: Tailwind CSS, Shadcn/UI, Framer Motion, Chart.js*
- *Testing: Jest, Cypress, React Testing Library*

Backend & API

- *Runtime: Node.js, Bun, Deno*
- *Frameworks: Express, Fastify, NestJS, .NET Core*
- *Languages: TypeScript, Python, Go, C#, PHP*
- *API: REST, GraphQL, WebSocket, gRPC*
- *Authentication: JWT, OAuth2, RBAC, SSO*

Data & Infrastructure

- *Databases: PostgreSQL, MySQL, MongoDB, Redis, Elasticsearch*
- *ORM/ODM: Prisma, TypeORM, Mongoose, Dapper*
- *Cloud: AWS (EC2, S3, Lambda, RDS), Vercel, Docker, Kubernetes*
- *CI/CD: GitHub Actions, Jenkins, GitLab CI*

RunWeek - Connected Sports Tracking Platform

- *Stack: React, Node.js, API integration (Garmin, Apple Watch, Samsung, Xiaomi)*
- *Features: AI performance analysis, personalized programs, health monitoring*
- *Demo: runweek.vercel.app*

Volvo EX30 - Electric Vehicle Promotional Site

- *Stack: Next.js, Node.js*
- *Demo: vol-vo-ex-30.vercel.app*

HomeEnergy - Energy Efficiency SaaS Solution

- *Stack: React, Node.js, real-time energy calculations*
- *Results: 70% heating cost savings, 75% CO₂ reduction*
- *Demo: home-energy-six.vercel.app*

MailCraft - Newsletter Creation Platform

- *Stack: Next.js, WYSIWYG editor, PDF generation*
- *Demo: mailcraft.vercel.app*

Automated Data Enrichment Platform

- *Stack: Next.js, Node.js, FTP automation, file processing queues*
- *Features: Automatic data enrichment, batch processing, notifications*
- *Source code: github.com/Le-Sourcier/automated-data-enrichment-platform*
- *Demo: partners-manager.vercel.app*

Advanced Automation Systems

- *Intelligent Scraping: Python/JavaScript for Pages Jaunes, Pappers, GoAfrica, Google Maps*
- *Automated Campaigns: N8N + MailWizz integration*
- *Automated Phone Calls: Vapi + SIP integration (IllyVoIP, Vonage)*

Published NPM Contributions

- *[@le-sourcier/n8n-nodes-mailwizz](https://www.npmjs.com/package/@le-sourcier/n8n-nodes-mailwizz) - 1.0.1 (25K+ downloads)*
- *[n8n-nodes-mailwizz-ls](https://www.npmjs.com/package/n8n-nodes-mailwizz-ls) - 2.1.13*
- *[n8n-nodes-gpt-oss](https://www.npmjs.com/package/n8n-nodes-gpt-oss) - 0.1.0*

Advanced Specialties

- *AI/ML: GPT integration, NLP processing, basic computer vision*
- *Automation: N8N, Make, webhooks, legal scraping*
- *Payments: Stripe, PayPal, Flutterwave, mobile money*
- *Security: OWASP top 10, encryption, code audits*

PROFESSIONAL VALUES

- *Technical Excellence: Clean code, testing, documentation*
- *Business Impact: Solutions aligned with business objectives*
- *Transparent Collaboration: Regular communication, constructive feedback*
- *Pragmatic Innovation: New technologies applied with discernment*
- *Continuous Learning: Constant improvement of skills*

Languages

- *French: Native (official language)*
- *English: Intermediate*
- *Chinese: Beginner (AI)*
- *Ewé: Native language*

Fullstack Developer & Project Manager

Drapeau Group | April 2024 - July 2024

Web platform for civil engineering, construction equipment rental, and real estate

- *Fullstack Development: Designed and developed the company's website using Node.js, Next.js, JavaScript, HTML, and Flutter.*
- *Deployment & Configuration: Managed server setup, database configuration, and performance optimization.*
- *Maintenance & Security: Conducted corrective and evolutionary maintenance, ensuring security and best practices.*
- *Source Code: github.com/Le-Sourcier/drapeau_group*

Development Trainer

IAFP La Pyramide | July 2024 - March 2025 | Lomé, Togo

Development Trainer at IAFP La Pyramide, a state-accredited modular training institute

Curriculum Development & Instruction

- Taught foundational programming concepts including algorithmic principles,
- JavaScript fundamentals,
- And modern web development with TypeScript and Next.js.

Full-Stack Project Guidance

- *Led hands-on projects where students built full-stack applications using Next.js and mobile apps with Flutter & React Native, applying Dart programming to create functional,*
- *deployable solutions.*

High Certification Success

- *Achieved an 85% student certification rate through structured lessons, code reviews,*
- *Project-based evaluation.*

Skill Translation to Practice

- *Enabled learners to progress from algorithmic thinking to building interactive web and mobile applications, Emphasizing clean code, version control, Collaborative development.*

Outcome-Focused Training

- *Focused on employable skills,*
- *Ensuring students could develop,*
- *Debug, and deploy applications independently by the end of the program.*

Technologies & Topics Taught

- *Programming Foundations: Algorithms, JavaScript, TypeScript, Dart*
- *Frontend & Backend: Next.js, React, API integration*
- *Mobile Development: Flutter, React Native*

Tools

- *Git, VS Code, Responsive design principles, debugging techniques*

Personal & Open Source Projects

ServCraft - Professional Node.js Backend Framework

- *Stack: TypeScript, Fastify, Prisma, PostgreSQL/MySQL, RBAC, Audit logs*
- *Status: Published NPM package (version 0.4.9)*
- *Features: JWT Authentication, user management, email templates, Docker-ready, CLI*

Create-Nexlify - CLI for Node.js Project Scaffolding

- *Stack: TypeScript, multiple databases, Zod/Joi, Swagger, Jest*
- *Features: Multilingual (FR/EN), entity generator, automated tests*

Campus Alert - Secure Mobile Application for Students

- *Stack: React Native/Expo, identity verification, marketplace, alert system*
- *Features: Student KYC, sponsored micro-campaigns, events, moderation*
- *Status: In advanced development, complete design system*

KEY ACHIEVEMENTS

1. Scalable architecture supporting 10K+ simultaneous users
2. 40% reduction in processing time through automation
3. Successful integration of 10+ complex third-party APIs
4. Publication of 4 NPM packages with comprehensive documentation
5. Performance optimization (65% reduction in load time)

EDUCATION & CERTIFICATIONS

- Professional Bachelor's in Agro-Economics - ESA UL Lomé
- Advanced Self-Taught Learning - 5000+ hours of hands-on practice
- Continuous Technological Watch - Conferences, workshops, open-source contributions

FOR A SUCCESSFUL PARTNERSHIP

- Availability: Full-time employment, Freelance, Long-term contracts
- Modalities: Remote, Hybrid, On-site (international mobility possible)
- Commitment: Full involvement, on-time delivery, guaranteed quality
- Scope: Fullstack development, architecture, technical consult *that transform businesses*.

I don't just write code, I build solutions that transform businesses.
